

Max's Roman Numeral Challenge

Learning objective: To read, write, and understand Roman numerals up to 100 (C).

Max the monkey is helping us learn Roman numerals! Look at the symbols carefully. Use the word bank to help you spell the numbers correctly. Write your answers on the lines provided.

Max the monkey is looking at old stone carvings. He sees the symbols I, V, X, L, and C. He needs to change them into numbers we use today to solve his maths puzzle.

Word bank: I = 1 · V = 5 · X = 10 · L = 50 · C = 100 · ten · fifty · one hundred

1. 1. Max sees the symbol 'X'. What number is this in our number system? (2 marks)

2. 2. Write these Roman numerals as numbers: a) VI = ____ b) XV = ____ (4 marks)

3. 3. Max has 'L' and 'I'. If he adds them together (LI), what is the total number? (4 marks)

4. 4. Match the Roman numeral to the number. Draw a line or write the number next to the symbol: XX = ____, XXX = ____, XL = ____, XC = _____. (8 marks)

5. 5. Max finds a stone with the Roman numeral 'LXXV'. Write a short sentence explaining what this number is. Use the symbols in the word bank to help you explain your answer. (7 marks)

Draw: Draw a stone tablet with the Roman numeral 'XXV' carved into it. Make it look like an old treasure map!

Extension challenge: Total: /25. Challenge: Can you write your age in Roman numerals?
