

Max's Shape Sorting Adventure

Learning objective: To identify and describe the properties of 2D shapes, including sides and angles.

Max the monkey is tidying his jungle playroom! He has found many shapes. Look at the shapes below and sort them into the correct boxes. Fill in the gaps to describe how many sides and corners each shape has.

Word bank: triangle · square · rectangle · sides · corners · equal

1. A _____ has 4 sides that are all the same length. It has 4 corners. (2 marks)

2. A _____ has 3 sides and 3 corners. (2 marks)

3. A _____ has 4 _____. The opposite sides are the same length. (2 marks)

4. Draw a line to match the shape to its name: [Triangle] --- [3 sides], [Square] --- [4 equal sides]. (2 marks)

Draw: Draw a picture of a house using only a square, a rectangle, and a triangle. Label each shape you have drawn.

Extension challenge: Max found a shape with 5 sides. Can you find out what this shape is called and draw it?
