

Max the Monkey's Word Problem Flashcards

Learning objective: To solve simple word problems involving addition, subtraction, multiplication, and division using pounds and pence.

Read the front of the card to find the puzzle. Use the clues to help you find the answer on the back. You can use your addition and subtraction skills to help Max solve these!

Max has £5. He spends £2 on a banana. How much does he have left?	Pip buys 3 books for £2 each. What is the total cost?
£3	£6
Nova has £10. She spends £4. How much change does she get?	Ellie has £8. She gives half to Zara. How much does Zara get?
£6	£4
Finn finds £5. He finds £3 more. How much does he have in total?	Kit has £9. He spends £5. How much is left?
£8	£4
Bea buys 2 flowers for £3 each. What is the total cost?	Leo has £10 and spends £7. How much change does he get?
£6	£3
Rosa has £4. She gets £4 more from a friend. How much does she have?	If 4 apples cost £4, how much is one apple?
£8	£1
Max has £6. He shares it between 2 friends. How much does each get?	Zara has £7 and spends £2. How much is left?
£3	£5
