

## Max's Musical Pitch Adventure

*Learning objective: To understand how pitch changes by drawing instruments and identifying high and low sounds.*

Max the monkey is listening to music! Help Max label the instruments and draw them in the correct place. Follow the steps below to complete your musical scene.

**Draw:** Draw a bright, colourful scene featuring Max the monkey sitting on a tree branch in the centre. On the left, draw a flute with thin, fast-vibrating sound lines (high pitch). On the right, draw a large double bass with thick, slow-vibrating sound lines (low pitch). Keep the style simple and clear, using colours to show the difference between high and low sounds.

*Label words: High pitch · Low pitch · Flute · Double bass · Sound waves*

### Steps:

1. Step 1: Draw a small, thin flute on the left side of the page. Label it 'High pitch'.
2. Step 2: Draw a large, thick double bass on the right side of the page. Label it 'Low pitch'.
3. Step 3: Draw wiggly lines coming from the flute. Draw slow, wide waves from the double bass.
4. Step 4: Draw Max the monkey in the middle. Is he listening to the high sound or the low sound? Write your answer.
