

Max's Ball Skills Challenge

Learning objective: To practise and develop control with a ball using hands and feet.

Follow the steps below to complete your drawing. Think about how Max moves his body to control the ball. Use the word bank to label the parts of your drawing.

Draw: Draw a clear, simple scene of Max the monkey in a park. Use a cartoon style with bold outlines. Max should look focused. Include a round ball at his feet. Make sure his posture looks ready for sports (knees bent, arms wide). Leave space around the character for you to add your labels from the word bank.

Label words: ball · knees bent · eyes on the ball · arms for balance · foot

Steps:

1. Step 1: Draw Max standing in the middle of the page. Draw him with his knees slightly bent to show he is ready to move.
2. Step 2: Draw a ball near Max's foot. Label the ball and the foot using words from the word bank.
3. Step 3: Draw Max with his arms out to the side for balance. Add a label for 'arms for balance'.
4. Step 4: Draw a line from Max's eyes to the ball to show he is watching it closely. Label this 'eyes on the ball'.
