

Kit's Clever Computing: Staying Safe Online

Be a Smart Explorer: Pause, Think, and Tell a Grown-up!

- If a screen asks you for your name or where you live, always ask a grown-up for help first.
- Keep your passwords secret, just like you would keep a special treasure hidden in a box.
- If you see something on a screen that makes you feel worried or sad, tell a trusted adult straight away.
- Remember to be kind online, just as you are when you play with your friends in the classroom.
- Always check with a teacher or parent before you click on a new game or a new video.

Did you know? Did you know? The internet is like a giant library that connects computers all over the world, but just like in a park, we need to follow special rules to stay safe while we play and learn!

Key vocabulary: Password · Internet · Private · Device · Kindness · Grown-up
