

Talking to the World: What is Prayer?

Join Pip the caterpillar and Ellie the elephant as we explore the quiet and special moments of prayer!

- Prayer is a special way for people to talk to someone or something they believe in.
- Many people use prayer to say 'thank you' for the good things in their lives, like family and friends.
- Some people find that being very quiet helps them to think about their thoughts and feelings.
- People can pray in many different places, such as a home, a church, a mosque, a temple, or even in a beautiful park.
- Prayer can be spoken out loud with words, or it can be a silent thought held inside the heart.
- Asking for help or guidance for other people is a common reason why someone might choose to pray.

Did you know? Did you know? People all around the world use prayer to share their hopes and dreams. Some people fold their hands, some light a candle, and some sit very still in nature to feel peaceful.

Key vocabulary: Prayer · Quiet · Thank you · Hope · Listen · Reflect
