

Nova's Digestive System Report

Learning objective: To describe the simple functions of the basic parts of the digestive system in humans.

Use the word bank to help you write your sentences. Look at the prompts to help you explain what happens to our food. Write clearly in the spaces provided.

Nova the owl wants to know how humans get energy from their food, so let's explain the journey of a meal.

Word bank: mouth · teeth · swallow · stomach · energy · first · then · next · finally

1. The Mouth: First, food goes into the mouth where... (2 marks)

2. The Journey: Next, we swallow the food and it travels down to the... (2 marks)

3. The Stomach: Inside the stomach, the food is... (2 marks)

4. The Result: Finally, our bodies use the food to give us... (2 marks)

Extension challenge: Can you draw a simple arrow diagram to show the path food takes through the human body?
