

Bea the Bee's Plant Adventure

Learning objective: To identify and describe the functions of different parts of flowering plants.

Help Bea the Bee explore the garden. Read the questions carefully. Use the word bank to help you finish the sentences. Write your answers in the boxes.

Word bank: roots · stem · leaves · flower · water · sunlight

1. Which part of the plant grows underground and sucks up water from the soil? (2 marks)

2. The _____ holds the plant up and carries water to the flowers. (2 marks)

3. Plants use their _____ to catch sunlight to help them grow. (2 marks)

4. What do plants need to grow? List two things. (2 marks)

Draw: Draw a plant with a big flower. Label the roots, the stem, the leaves, and the flower.

Extension challenge: Bea the Bee says: 'What would happen to a plant if it did not get any sunlight?' Talk to a partner about your idea.
