Celebrating Black History Month with Ellie the Elephant

Join Ellie on a journey through history—let's celebrate, learn, and remember together!

- **Black History Month helps us learn about the brave people who worked hard to make the world a fairer place for everyone.**
- **Many Black inventors have created things we use today, like traffic lights and parts for computers, helping keep us safe and connected.**
- **Black artists, writers, and musicians have shared beautiful stories and songs that bring joy to people all over the world.**
- **Learning about history helps us understand the past so we can build a kinder and brighter future for all our friends.**
- **Ellie the Elephant remembers that every person has a unique story, and listening to those stories makes our community stronger.**

Did you know? Did you know? Black History Month is a time when we celebrate the amazing things Black people have done for the world. In the UK, we celebrate this in October. It is a time to share stories, learn about inventors, artists, and leaders, and think about how we can all be kind and fair to one another.
