

A Sparkly Guide to Bonfire Night with Nova the Owl

Wrap up warm and join Nova for a crackling night of history and light!

- Bonfire Night is celebrated every year on the 5th of November to remember historical events from 1605.
- People build large bonfires in their gardens or at local parks to light up the dark, chilly fall sky.
- Bright, colorful fireworks zoom into the air and create beautiful patterns, which Zara the Zebra loves to draw!
- Safety is very important; we always stand well back from the fire and wear gloves when holding a sparkler.
- Many families enjoy eating warm treats like toffee apples or jacket potatoes while watching the display.

Did you know? Did you know? The very first fireworks were invented in China over 2,000 years ago! They were originally used to make loud noises to celebrate special occasions and keep people happy.
