

A Sparkly Night with Nova and Leo

Wrap up warm and discover the magic of Bonfire Night!

- Nova the owl watches the firework display from her tree. She sees a firework go 'whizz' into the sky.
- Leo the lion writes a poem about the crackling bonfire that keeps everyone warm.
- People wear woolly hats and scarves to stay cosy on a chilly November evening.
- Sparklers are small sticks that glow and fizz when they are lit carefully by grown-ups.
- Many families enjoy eating yummy treats like toffee apples while they watch the show.

Did you know? Did you know? The bright colors in fireworks are made by special ingredients inside them! When they light up, they create beautiful patterns of red, green, and blue in the night sky.
