

Pip's Library Review

Learning objective: To identify and explain the features of a book review and share personal opinions about a text.

Read the book review written by Pip the caterpillar. Use the text to answer the questions below, making sure to use full sentences.

My name is Pip, and I love reading. Today, I am reviewing a book called 'The Magic Oak Tree'. This story is about a brave squirrel named Nutty who finds a golden acorn. My favorite part of the book is when Nutty builds a secret bridge across the stream to help his friends reach the forest festival. The illustrations are beautiful because they are full of bright colors and tiny details. I think this book is perfect for anyone who likes stories about friendship and nature. It is quite a short book, so it is easy to read in one afternoon. I would recommend this book to my friend Max the monkey because he loves puzzles, and there is a clever maze in the middle of the story. I give this book five out of five stars because it made me feel happy and excited. It is definitely one of the best books I have read this year. If you enjoy happy endings and forest adventures, you should definitely pick up a copy of 'The Magic Oak Tree' from the library today.
