

Finn's Weather Wonders!

Put on your wellies and grab your coat – let's explore the weather with Finn the Dolphin!

- **When the sun shines brightly, we wear sunglasses and light clothes to stay cool.**
- **When it is rainy, we use an umbrella and wear our colorful wellies to keep our feet dry.**
- **When it is windy, the trees dance and the leaves blow around in the air.**
- **When it is snowy, the ground turns white and we need a warm hat, scarf and gloves.**
- **There are four seasons in a year: Spring, Summer, Fall and Winter.**

Did you know? Did you know? Finn the Dolphin loves the rain because it fills up the rivers and the seas. Even though he lives in the water, he likes to watch the clouds change shape in the sky above!
