

Max the Monkey's Money Mastery: Grade 4 Math Flashcards

Learning objective: To practice calculating with money, solving problems involving addition, subtraction, multiplication, and division of dollars and cents.

Read the front of the card to test your knowledge. Flip to the back to check your answer and see how Max the Monkey solved the puzzle!

What is $£4.50 + £2.75$?	If a notebook costs $£1.20$, how much would 4 notebooks cost?
£7.25	£4.80
Max has $£10.00$. He spends $£6.40$ on fruit. How much change does he get?	What is the decimal point used for in $£5.99$?
£3.60	To separate the pounds from the pence.
Divide $£8.40$ equally between 4 friends. How much does each person get?	How many 20p coins make up $£1.00$?
£2.10	5 coins.
True or False: $£0.75$ is the same as 75p.	If an item costs $£2.50$, what is the cost of 3 items?
True.	£7.50
Round $£4.89$ to the nearest pound.	You buy a pen for $£1.50$ and a ruler for 80p. What is the total?
£5.00	£2.30
How many pence are in $£3.00$?	If 5 apples cost $£2.00$, how much is one apple?
300p.	40p.
