

Max the Monkey's Multiplication Flashcards

Learning objective: To understand multiplication as repeated addition and equal groups, and to solve simple multiplication problems using the 2, 5, and 10 times tables.

Use these flashcards to practice your multiplication skills. Read the question on the front, then flip it over to check your answer. Max the Monkey uses these to count his favorite snacks!

What does 'multiplication' mean?

Adding the same number many times (repeated addition).

Max has 3 baskets. Each basket has 2 bananas. How many bananas in total?

6 (3 groups of 2).
