

Max the Monkey's Fruit Stall Subtraction

Learning objective: To subtract one-digit numbers within 20, including zero.

Help Max the monkey count his fruit! Look at the subtraction problems on the fruit crates and color the matching answer on the fruit. Then, answer the questions below.

Colour this: A friendly monkey named Max wearing a small waistcoat, standing behind a wooden fruit stall. On the stall are three wooden crates. One crate has the label ' $10 - 3 = ?$ ', one has ' $8 - 4 = ?$ ', and one has ' $5 - 0 = ?$ '. Next to the crates are several pieces of fruit with numbers drawn on them: 7, 4, and 5. The background shows a simple jungle tree and some large leaves. The lines should be bold and clear for coloring.

Steps:

1. Label the total number of bananas Max started with in the crate.
2. Label the amount that Max took away from the pile.
