

## Grade 3 RE: Exploring Choices and Consequences

*Learning objective: To evaluate moral dilemmas, understand the concept of a 'conscience', and reflect on how values influence our actions.*

Read each question carefully. For longer answers, use full sentences and explain your reasoning. Think about the views of others even if they differ from your own.

Max the monkey found a shiny gold coin worth £1 on the playground. He looked around and saw a younger student looking upset, searching the ground. Max knows that keeping the coin would allow him to buy a healthy snack, but he also knows the coin might belong to the student who is missing their lunch money. Leo the lion, known for his wisdom, watches to see what Max will decide to do.
