

Kindness in the Garden

Learning objective: To explore the concept of kindness and moral choices through the story of Bea the honeybee sharing her nectar.

Talk about how Bea is being a kind friend. Color in the picture and think about a time you helped someone today.

Colour this: A large, friendly cartoon honeybee named Bea with a smiling face, wearing a tiny sun hat. Bea is hovering over a large, cheerful flower with wide petals. Next to the flower, there is a small watering can. The background shows a sunny garden with a few simple shapes of grass and a smiling sun in the corner. Use clear, thick outlines suitable for young children to color in.

Steps:

1. Label the wings of the bee.
2. Label the flower petals.
