

Nova's Seasonal Science Diary

Learning objective: To observe and describe the changes in the natural world across the different seasons.

Help Nova the owl record how the world changes throughout the year. Choose one season to focus on and use your senses to describe what you can see, feel, and hear outside. You can draw a picture to show the weather and the plants you find.

Word bank: Spring · Summer · Fall · Winter · Cold · Warm · Rain · Sun · Leaves · Flowers

1. Which season are we in right now? Write the name of the season here.

2. What is the weather like today? Is it sunny, rainy, or windy?

3. Look at the trees or plants. What can you see growing or changing?

4. What clothes are you wearing to stay comfortable in this season?

5. What is your favorite thing to do outside in this season?

Extension challenge: Ask a grown-up to help you find one sign of the next season, like a tiny bud on a tree or a leaf changing color, and tell Nova all about it.
