Zara’s Abstract Art Adventure

Learning objective: To explore abstract art by using shapes, lines, and colours to express feelings and ideas.

Look at the patterns and shapes below. Zara the Zebra loves abstract art because it doesn't have to look like a real-life object! Use your brightest colouring pencils or crayons to fill in the spaces. You can use any colours you like to make the picture look happy, calm, or energetic.

Colour this: A large, bold line-art composition featuring Zara the Zebra standing in the corner holding a paintbrush. The main area of the page is filled with a variety of geometric and organic abstract shapes: large overlapping circles, jagged triangles, soft flowing wavy lines, and thick zig-zag patterns. The shapes should be uncoloured with thick, clear black outlines suitable for children to fill in. Zara is drawn with a friendly, simple style, smiling as she looks at her abstract masterpiece.

Steps:

1. Label the circle in your picture.
2. Label a wavy line in your picture.
