

Zara's Beautiful Landscape

Learning objective: To explore natural landscapes and develop fine motor skills through colouring, whilst identifying key features of the environment.

Look at the landscape drawing below. Use your brightest crayons or felt tips to colour in Zara the Zebra's favourite view. Think about what colours you see in nature, like green grass, blue water, and a golden sun!

Colour this: A simple, clean-lined landscape scene for colouring. In the foreground, Zara the Zebra is standing on a grassy hill smiling. There is a large, sturdy tree with round leaves to the left. In the middle ground, a winding river flows across the scene. In the background, there are two gentle, rolling hills and a large, happy sun with rays in the top right corner. The lines should be thick and bold, suitable for Foundation children to colour within.

Steps:

1. Label the tree in your picture.
2. Label the river in your picture.
3. Label the sun in your picture.
