Zara’s Wonderful World of Sculpture

Get creative and build something amazing today!

- **A sculpture is a 3D object that you can touch and see from all sides.**
- **Artists use their hands to mould materials like clay, dough, or recycled card.**
- **You can add texture to your sculpture by pressing patterns into the surface.**
- **Sculptures can be big enough to stand outside or small enough to hold in your hand.**
- **When you join different shapes together, you are building a structure.**
- **Art is a wonderful way to show how you feel and what you can imagine.**

Did you know? Did you know? A sculpture is a piece of art that is 3D, which means it has height, width, and depth. Unlike a painting on a wall, you can walk all the way around a sculpture to see it from every angle!
