Exploring the Wonders of Africa with Finn

Pack your bags and join Finn the dolphin on a journey across the vast and vibrant continent of Africa!

- **Africa is home to the Sahara, the largest hot desert in the world, which stretches across much of North Africa.**
- **The Equator passes through the middle of the continent, meaning Africa has tropical climates in its central regions.**
- **The African Savanna is a vast grassland biome that supports a spectacular variety of wildlife and distinct seasonal weather patterns.**
- **Mount Kilimanjaro, located in Tanzania, is the highest mountain in Africa and is famous for its snow-capped peak near the Equator.**
- **Africa is divided into 54 countries, each with unique cultures, languages, and historical landmarks.**

Did you know? Did you know? Africa is the second-largest continent in the world, covering about 20% of the Earth's total land area! It is home to the Nile, which is often considered the longest river on the planet, flowing over 4,000 miles through diverse landscapes before reaching the Mediterranean Sea.
