

Moon Mission Adventure with Ellie the Elephant

Learning objective: To learn about the historical significance of Neil Armstrong and the first Moon landing.

Read the facts about the first moon walk, colour in the scene, and complete the labelling tasks at the bottom of the page.

Colour this: A clear, bold outline drawing of an astronaut standing on the surface of the Moon. In the background, draw a large, circular Moon with craters and a distant, smaller Earth visible in the black sky. To the side, draw Ellie the Elephant wearing a small, playful astronaut helmet and waving a flag. The ground should have simple, curved lines to represent craters and dust.

Steps:

1. Label the astronaut in your picture.
2. Label the Moon's surface in your picture.
