Max the Monkey's Angle Flashcards

Learning objective: To identify and name different types of angles: acute, obtuse, right, and straight.

Max the Monkey needs your help to identify these angles. Look at the front of the card to see the angle name or picture. Then, flip the card (or look at the answer) to see if you are right. Use the word bank to help you.

What is an angle smaller than a right angle?	**What is an angle that is exactly 90 degrees?**
Acute angle	Right angle
What is an angle larger than a right angle but smaller than 180 degrees?	**What is an angle that is exactly 180 degrees?**
Obtuse angle	Straight line
What unit do we use to measure angles?	**Is 45 degrees an acute or obtuse angle?**
Degrees	Acute angle
Is 120 degrees an acute or obtuse angle?	**How many degrees are in a right angle?**
Obtuse angle	90 degrees
How many degrees are in a straight line?	**True or False: A right angle looks like the corner of a square.**
180 degrees	True
