Max’s Angle Adventure

Learning objective: To identify, compare, and order angles as less than or greater than a right angle.

Hello! I am Max the monkey. I love to find shapes and angles in the world around me. Use this sheet to hunt for angles in your classroom or at home. Follow the steps below to record what you find.

Word bank: Angle · Right angle · Acute · Obtuse · Corner · Less than · Greater than

1. Right Angle Hunt: Find an object with a perfect corner (a right angle). Write the name of the object here. (2 marks)

2. Smaller than a Right Angle: Find an angle that is 'sharper' or smaller than a right angle. Describe where you found it. (2 marks)

3. Larger than a Right Angle: Find an angle that is 'wider' or larger than a right angle. What object is it part of? (2 marks)

4. Max’s Challenge: If you put two right angles together, what do you think the shape would look like? Describe it here. (2 marks)

Extension challenge: Can you draw three different angles you found today and label them as 'Right', 'Smaller', or 'Larger'?
