Max’s Christmas Market Maths

Learning objective: To solve simple addition and subtraction problems involving money in a festive context.

Help Max the monkey count his coins at the Christmas market! Colour the objects, solve the money problems, and finish the labelling tasks.

Colour this: A large, friendly monkey named Max wearing a striped scarf, standing behind a wooden market stall. On the stall, draw three apples priced at 20p each and a jar of honey priced at £1. Include a pile of round coins on the counter. The background shows a simple Christmas tree with star-shaped decorations and geometric patterns on the floor for the children to colour. Ensure all items have clear, thick outlines suitable for colouring.

Steps:

1. Label the £1 coin in your picture.
2. Label the basket of apples.
