Max's Easter Egg Hunt

Learning objective: To practise counting and simple addition using seasonal objects.

Help Max the monkey count his Easter basket treats! Colour the eggs and solve the maths puzzles below.

Colour this: A cheerful scene featuring Max the monkey sitting on a patch of grass. Max is holding a woven basket. Inside the basket, there are 7 oval-shaped Easter eggs of different sizes with simple patterns like stripes and polka dots. Surrounding Max are 3 spring flowers (daisies) and 2 small butterflies. The lines should be bold and clear for colouring. In the corner, draw a small price tag attached to one of the eggs that says '£1'.

Steps:

1. Max has 4 blue eggs and 3 yellow eggs. How many eggs does he have in total? Write your answer here:
2. If each egg costs £1, how much do 5 eggs cost altogether? Write the amount in pounds here:
3. Label the largest egg in the picture with the letter 'L'.
