

Max the Monkey's Measurement Flashcards

Learning objective: To identify and use standard units of measurement for length, mass, and volume.

Read the front of the card. Try to guess the answer. Then, look at the answer after the | sign. Use the word bank to help you.

What unit do we use to measure the length of a pencil?	What unit do we use to measure the height of a tall tree?
Centimetres (cm)	Metres (m)
How many centimetres are in one metre?	What do we call the 'heaviness' of an object?
100 centimetres	Mass
Which unit is best for weighing a heavy bag of flour?	Which unit is best for weighing a small apple?
Kilograms (kg)	Grams (g)
How many grams are in one kilogram?	What unit do we use to measure liquid in a large bottle?
1000 grams	Litres (l)
What unit do we use to measure a small spoonful of medicine?	How many millilitres are in one litre?
Millilitres (ml)	1000 millilitres
Max has £5.00. He buys a ruler for £1.50. How much change does he get?	
£3.50
