Celebrating Amazing People: Black History Month

Join Ellie the Elephant on a journey of discovery! Let’s learn, share, and celebrate together.

- **History is the story of things that happened in the past. We learn about history to understand how the world grew.**
- **Many Black inventors have created things we use every day, like traffic lights and parts of computers!**
- **Celebrating means we share our joy, our food, our music, and our stories with everyone in our classroom family.**
- **We can learn about brave leaders who taught us that being kind and standing up for what is right is very important.**
- **Everyone is unique! Our differences in how we look and where our families come from make our world colourful and exciting.**
- **We celebrate Black History Month in October, but we can learn about amazing people and their stories all year round.**

Did you know? Did you know that Black History Month is a special time in October when we learn about the wonderful inventions, stories, and bravery of Black people from all over the world? It is a time to say thank you for the big changes they have made to make our world a better place!
