

Kindness Grows with Friends

Learning objective: To understand that kindness means being helpful, sharing, and caring for our friends.

Colour in the picture of Pip and Ellie sharing a lovely afternoon together. Think about how you show kindness to your friends at school.

Colour this: A sunny garden scene with thick, bold outlines for colouring. In the centre, Pip the cheerful caterpillar is sitting on a large green leaf, handing a bright daisy to Ellie the kind elephant. Ellie is smiling warmly and holding a watering can. Beside them, there is a small pile of colourful building blocks they are sharing. The background features a large, friendly sun with a smiley face in the corner, a fluffy cloud, and a few small, simple flowers in the grass to be coloured in.

Steps:

1. Label the character who is a cheerful caterpillar.
2. Label the character who is a kind elephant.
