

## Max's Brilliant Money Poster

Help Max the Monkey count his pennies and learn how we use money every day!

- We use money to buy things we need and things we want at the shop.
- Coins have different sizes and colours, and each one has a special value.
- In the UK, we use pence and pounds (£) to pay for our shopping.
- When we put money in a piggy bank, we are saving it for later.
- It is kind to share, but sometimes we need to pay for things that belong to a shop.

*Did you know? Did you know? Before we had coins and notes, people used to trade things like shells, salt, or even shiny stones to swap for the items they needed!*

**Key vocabulary: Penny · Pound · Spend · Save · Shop · Value**
