

Nova's Autumn Discovery Journal

Learning objective: To observe and describe changes across the four seasons, specifically focusing on autumn.

Use your senses and your science knowledge to complete this journal entry. Look at the leaves, feel the air, and think about what Nova the owl might see in the woods.

As I walked through the woods with Nova, I noticed that the season was changing to autumn.

Word bank: crunchy · golden · changing · cooler · deciduous · because · and · then · autumn

1. What do the leaves look like in autumn? Start your sentence with: The leaves are... (2 marks)

2. How does the weather feel compared to summer? Start your sentence with: The air feels... (2 marks)
