

Nova's Water Cycle Flashcards

Learning objective: To identify and describe the main stages of the water cycle.

Read the front of the card. Try to guess the answer. Then, look at the back to check if you are right. Use the word bank to help you.

What heats up the water in the sea?

The Sun

What is it called when water turns into gas?

Evaporation

What is the gas form of water called?

Water vapour

What forms when water vapour cools down in the sky?

Clouds

What is it called when water vapour cools to form clouds?

Condensation

What is it called when water falls as rain, snow, or hail?

Precipitation

Where does rainwater gather after falling?

Collection

Does the water cycle ever stop?

No, it is a continuous cycle.

What liquid falls from clouds?

Rain

Nova loves to watch this cycle. What is it called?

The Water Cycle
