Zara’s Wonderful World of Abstract Art

Get creative with Zara the Zebra! Let your imagination run wild and paint what you feel!

- **Abstract art is all about using your imagination to create shapes and colours.**
- **You can use big, bold lines to show if you are feeling excited or energetic.**
- **Patterns can be made by repeating shapes like circles, triangles, or squares.**
- **Mixing colours together can create new, beautiful shades for your masterpiece.**
- **Abstract art does not have to look like a person, a place, or a thing.**

Did you know? Did you know? Abstract artists don't try to make their paintings look exactly like real life. Instead, they use bright colours and messy patterns to show how they are feeling inside—like a happy sunshine swirl or a calm blue wave!
