

Zara's Big and Small Art Adventure

Learning objective: To understand the concept of perspective by observing how objects appear smaller when they are further away.

Look at the picture and notice how Zara the Zebra is drawing. Colour the objects that are close to Zara with bright, bold colours. Colour the objects that are far away with lighter, softer colours to show they are in the distance.

Colour this: A scenic landscape featuring Zara the Zebra standing on the left side of the foreground. Zara is holding a paintbrush and standing next to a large, detailed sunflower that fills the bottom left corner. In the middle ground, there is a path winding towards the right. In the distance, on the right side of the page, there are three small trees and two tiny birds flying in the sky. The lines should be clean and bold for colouring. The composition uses perspective: the sunflower is very large, while the trees in the background are very small.

Steps:

1. Label the largest tree in your picture.
2. Label the smallest butterfly in your picture.
