

Finn's Biome Fact-File

Learning objective: To identify and describe the features of a specific biome.

Hello! Finn the dolphin is exploring the world's habitats. Choose one biome (like a desert, rainforest, or polar region) and fill in this fact-file to help Finn map the world. Use the word bank below to help you write your sentences.

Word bank: climate · temperature · habitat · wildlife · rainforest · desert · polar · grassland · weather

1. Name of the Biome: Write the name of the habitat you have chosen. (1 mark)

2. The Climate: Describe the weather in this place. Is it hot, cold, wet, or dry? (2 marks)

3. Living Things: List two animals or plants that live in this biome. (2 marks)

4. Adaptations: How do the animals stay safe or find food in this place? (2 marks)

Extension challenge: Draw a picture of an animal that lives in your chosen biome and label one special feature that helps it survive (for example: thick fur for warmth or big ears for cooling down).
