Finn’s Volcano Explorer Report

Learning objective: To write a simple non-chronological report about volcanoes using geographical vocabulary.

Use this frame to help you write your own report about volcanoes. Use the word bank to help you describe what they are and what happens when they erupt. Remember to use capital letters and full stops.

A volcano is a special type of mountain that can change the land around it.

Word bank: mountain · hot · lava · erupt · ash · earth · rock · because · and · also

1. What is a volcano? Start your sentence with: A volcano is... (2 marks)

2. What comes out of a volcano? Start your sentence with: When a volcano erupts, it... (2 marks)
