# Max the Monkey's Shape Adventure

*Learning objective: To recognise and name 2D and 3D shapes, and describe their properties.*

Read the front of the card to see the shape or question. Try to say the answer out loud before checking the back of the card!

| | |
|---|---|
| **Max the Monkey sees a shape with 3 straight sides and 3 corners. What is it?** | **I have 4 equal sides and 4 corners. What shape am I?** |
| Triangle | Square |
| **This 2D shape is perfectly round and has no corners. What is it?** | **Max found a shape like a building block with 6 square faces. What is it?** |
| Circle | Cube |
| **I have 4 sides, but 2 are long and 2 are short. What shape am I?** | **This 3D shape is like a ball. What is it?** |
| Rectangle | Sphere |
| **A shape with a flat circular base that goes up to a point. What is it?** | **True or False: A cylinder has 2 flat circular faces.** |
| Cone | True |
| **Which shape has 5 faces and a square base?** | **Max wants to draw a shape with 4 corners. Name two shapes he could choose.** |
| Square-based pyramid | Square or Rectangle |
| **How many corners does a triangle have?** | **Does a sphere have any flat sides?** |
| 3 corners | No, it is curved all the way around |
