Max the Monkey's Time Adventure

Learning objective: To recognise and use language relating to dates and time, and to tell the time to the hour and half-past the hour.

Help Max the Monkey learn about time! Colour in the scene and then complete the labels to show what you know about clocks.

Colour this: A large, friendly monkey named Max is sitting in a jungle clearing. Beside him is a large, sturdy wooden clock face hanging from a tree branch. The clock face has clear numbers from 1 to 12. The minute hand is pointing at the 12 and the hour hand is pointing at the 3, showing 3 o'clock. There are tropical flowers and leaves in the background to colour. The outlines should be thick and clear for young children to fill in with bright colours.

Steps:

1. Label the 'minute hand' on the clock in the picture.
2. Label the 'hour hand' on the clock in the picture.

3. Write down what time the clock shows if the long hand points to 6.
