

Max the Monkey's Multiplication Market

Learning objective: To recall and use multiplication facts for the 2, 5, and 10 times tables.

Max the monkey is helping his friends at the market. Each item has a price tag. Look at the number of items being bought and the price per item. Work out the total cost using your times tables skills. Write your calculation and the total price in pounds.

Word bank: multiplication · times · total · calculation · pounds

1. Pip buys 5 shiny apples. Each apple costs £2. How much does Pip spend in total? (Calculation: ____ x ____ = £____) (2 marks)

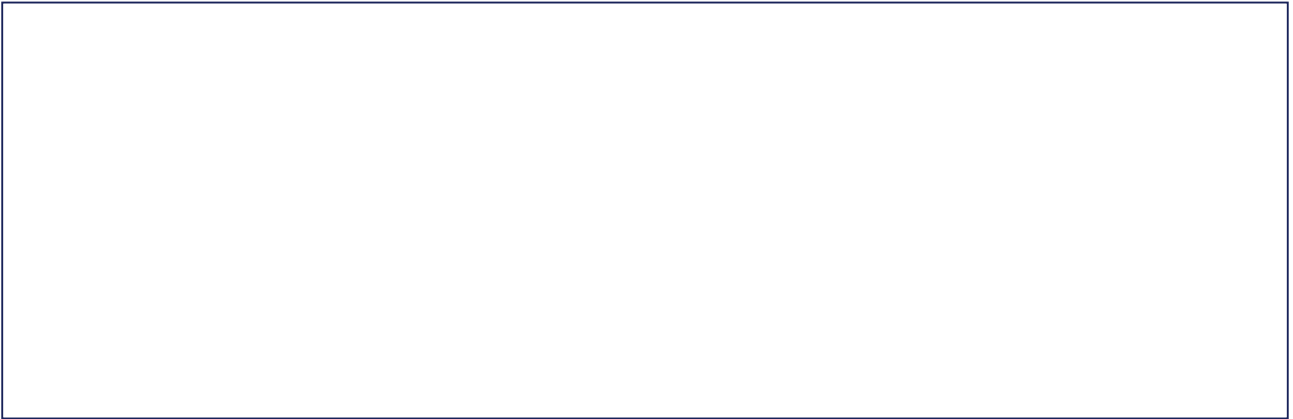

2. Nova buys 10 star-shaped stickers. Each sticker costs £5. How much does Nova spend in total? (Calculation: ____ x ____ = £____) (2 marks)

3. Ellie buys 3 bunches of bananas. Each bunch costs £5. How much does Ellie spend in total? (Calculation: ____ x ____ = £____) (2 marks)

4. Zara buys 8 paintbrushes. Each paintbrush costs £2. How much does Zara spend in total? (Calculation: ____ x ____ = £____) (2 marks)

5. Kit buys 4 computer wires. Each wire costs £10. How much does Kit spend in total? (Calculation: ____ x ____ = £____) (2 marks)

Draw: Draw a picture of Max the monkey standing at a market stall with bunches of bananas and baskets of apples, showing the prices clearly on labels.

Extension challenge: Max has £50 to spend at the market. If he buys 6 bags of peanuts for £5 each, how much money will he have left? Show your working out.
