

Max's Money Adventures

Learning objective: To recognise coins and understand that we use money to pay for items.

Help Max the monkey count his coins! Colour in the coins and the fruit in the market stall. Can you name the coins you see?

Colour this: A friendly monkey named Max standing behind a small wooden market stall. On the stall, there are three apples and a banana. In front of the stall, there are several clearly drawn circular coins of different sizes scattered on a table. Some coins have the number '1' on them and others have '2p' or '5p' written on them. Max is smiling and holding a small cloth purse. The background shows a simple sun and a fluffy cloud. The lines should be thick and bold for easy colouring.

Steps:

1. Label the £1 coin in the picture.
2. Label the fruit that Max wants to buy.
