# Nova’s Animal Kingdom Flashcards

*Learning objective: To identify and name a variety of common animals including fish, amphibians, reptiles, birds and mammals, and to identify and name a variety of common animals that are carnivores, herbivores and omnivores.*

Read the front of each flashcard to Nova the owl. Then, flip the card over (or check the answer provided) to see if you are correct! Use these to help you remember how we group different animals.

| | |
|---|---|
| **What do we call an animal that only eats plants?** | Herbivore |
| **What do we call an animal that eats both plants and other animals?** | Omnivore |
| **What do we call an animal that only eats meat?** | Carnivore |
