

Zara's Sculpture Studio

Learning objective: To explore the concept of 3D sculpture and practice fine motor skills through creative colouring.

Welcome to Zara the zebra's art studio! Zara is busy making a sculpture today. Look at the shapes she has used to build her artwork. Colour in Zara and her sculpture, then try to label the parts of the picture.

Colour this: A friendly zebra named Zara wearing a painter's apron, standing in a bright studio. In the centre of the room is a sculpture made of simple geometric shapes: a large cube at the bottom, a sphere in the middle, and a pyramid on top. Zara is holding a sculpting tool. The background includes a large window with sunlight, a wooden floor, and a small table with a lump of clay and some artistic brushes. The outlines should be thick and clear for easy colouring.

Steps:

1. Label the sculpture in your picture.
2. Label the artist, Zara.
