

Kit's Guide to Digital Safety

Learning objective: To compose an informative guide on how to stay safe, respectful, and responsible when using digital devices and the internet.

Use this writing frame to create a comprehensive E-Safety guide. Ensure your tone is helpful and advisory, reflecting Kit the fox's clever approach to problem-solving. Use the word bank to help your writing flow, and remember to justify your advice with clear reasons.

In our increasingly connected world, navigating the internet safely is as essential as learning to cross the road.

Word bank: furthermore · consequently · in contrast · digital footprint · privacy settings · confidential · cyberbullying · reputable · nevertheless · consequently

1. Introduction: Why is it important to be cautious about the information we share online? Start with: 'Maintaining privacy online is vital because...' (2 marks)

2. Managing Digital Footprints: Explain why the things we post or share online are permanent. Start with: 'Every action we take on the internet creates a digital footprint, which means...' (3 marks)

3. Identifying Risks: Compare and contrast how to tell the difference between a reliable website and one that might be unsafe. Start with: 'When browsing, it is crucial to identify reputable sources by...' (3 marks)

4. Responding to Concerns: What is the best course of action if someone encounters something online that makes them feel uncomfortable? Start with: 'If a digital experience feels wrong, the most effective response is to...' (3 marks)

5. Justifying Digital Etiquette: Explain why it is important to treat others with kindness in digital spaces. Start with: 'Digital etiquette is significant because...' (2 marks)

6. Conclusion: Summarise your top three tips for a peer. Start with: 'To summarise, the most important steps for staying safe are...' (2 marks)

Extension challenge: Imagine a scenario where a friend receives a message from an unknown person asking for their school name. Justify what you would advise your friend to do, and explain what might happen if they chose to reply. How would you adjust your advice if the platform was a moderated educational site versus a public social network?
