

Rosa's Transport Adventure: A French Drawing Sheet

Learning objective: To identify and use French vocabulary for different modes of transport within a creative context.

Rosa the parrot is going on an international journey! Use the word bank to label the vehicles in your scene. Make sure your labels are clearly written next to each mode of transport.

Draw: Draw a vibrant, colourful travel scene that includes at least four different modes of transport from the word bank. Your style should be clear and descriptive, like a travel poster. Include Rosa the parrot soaring above the scene. Label each vehicle clearly in French.

Label words: le train · la voiture · le vélo · l'avion · le bateau · le bus

Steps:

1. Identify which transport you would use for a long-distance journey across the ocean and explain why using French vocabulary.
2. Compare and contrast 'le train' and 'la voiture'. Which is more environmentally friendly for a journey to school and why?
3. Label your drawing with the correct French article (le/la/l'). Why is 'l'avion' written with an apostrophe?
