

Exploring Asia with Finn the Dolphin

Learning objective: To identify key geographical features of the continent of Asia and understand its diverse landscapes.

Read each question carefully. Use the word bank to help you spell the names of places and features. Finn the Dolphin is here to help you!

Asia is the largest continent on Earth. It has many different types of land, including very high mountains, hot deserts, and busy cities. Finn the Dolphin loves to swim in the Indian Ocean, which touches the south of Asia. Some places in Asia are very hot, while others are very cold.
