

Finn's Coastal Exploration

Learning objective: To identify and describe the physical features of a UK coastline.

Finn the dolphin is exploring the UK coastline. Look at the questions below to help Finn map the coast. Use the word bank to help you spell the words.

Word bank: beach · cliff · sea · sand · rocks · coast

1. Finn swims near the edge where the land meets the ocean. What is this place called? (1 mark)

2. Look at the high, steep rock face by the water. What is this landform called? (1 mark)

3. Name two things you might find on a beach. (2 marks)

4. Complete the sentence: A coast is the place where the land meets the _____. (1 mark)

Draw: Draw a picture of a coastline. Include a high cliff, a sandy beach, and the sea. Label your drawing using words from the word bank.

Extension challenge: Imagine you are Finn the dolphin. Write one sentence about what you can see under the water near the coast.
