

Exploring Our Continent: Europe

Join Finn the Dolphin on a grand tour of Europe!

- Europe is a large landmass called a continent. It is bordered by the Arctic Ocean to the north and the Atlantic Ocean to the west.
- The Alps are a famous mountain range in Europe. They stretch across many countries, including France, Switzerland, and Italy.
- The River Danube is one of Europe's longest rivers. It flows through ten different countries before reaching the sea.
- Many European countries have famous capital cities, such as London in the United Kingdom, Paris in France, and Rome in Italy.
- Europe has many different climates. Some parts are very cold and snowy, while the southern areas near the Mediterranean Sea are warm and sunny.

Did you know? Did you know? Even though Europe is one of the smallest continents in the world, it is home to over 40 different countries, each with its own special traditions and languages!
